- 7.1 Any individual recorded in any CCTV image is a data subject for the purposes of the Data Protection Legislation, and has a right to request access to those images.
- 7.2 Any individual who requests access to images of themselves will be considered to have made a subject access request pursuant to the Data Protection Legislation. Such a request should be considered in the context of the Trust's Subject Access Request Policy.
- 7.3 When such a request is made the Principal or any nominated responsible persons as delegated by the Academy Principal will review the CCTV footage, in respect of relevant time periods where appropriate, in accordance with the request.

The Principal or any nominated responsible persons as delegated by the Academy Principal must take appropriate measures to ensure that the footage is restricted in this way.

- 7.5 If the footage contains images of other individuals then the Trust must consider whether:

Detail should be obtained from the law enforcement agency as to exactly what they want the CCTV images for, and any particular individuals of concern.

This will then enable proper consideration to be given to what should be disclosed, and the potential disclosure of any third party images.

- 8.4 The information above must be recorded in relation to any disclosure.
- 8.5 If an order is granted by a Court for disclosure of CCTV images then this should be complied with. However very careful consideration must be given to exactly what the Court order requires. If there are any concerns as to disclosure then the Data Protection Officer should be contacted in the first instance and appropriate legal advice may be required.
